The Challenge You're Facing

You've tried ChatGPT. Maybe Claude or Gemini too. You got some interesting results. But you're still not sure how to make AI a consistent, reliable part of your professional toolkit.

Meanwhile, the gap between those who've mastered AI and those who haven't keeps widening.

This retreat closes that gap.

What You'll Learn

This is a **two-day intensive workshop** where you'll stop experimenting and start implementing. No lectures. No theory dumps. Just practical, hands-on sessions that give you workflows you can use immediately.

Day 1: Foundations & Implementation

Morning:

- Generative AI fundamentals: what works, what doesn't, and why
- Platform overview: Claude, ChatGPT, Gemini, and specialized tools
- Hands-on session: Basic to advanced prompting techniques
- Workshop: Crafting domain-specific prompts for your profession

Afternoon:

- AI for professional content creation: proposals, articles, client communications
- Editing and refining AI outputs to maintain your voice
- Real-world applications in your industry

Evening:

- Dinner and moderated discussion: "The AI Revolution in Professional Services"
- Networking with fellow professionals navigating the same transformation

Day 2: Advanced Tools & Integration

Morning:

- Survey of specialized AI tools beyond chatbots
- Research assistants, data analysis tools, and visual generators
- Test 2-3 tools relevant to your specific field

Afternoon:

- Building AI into your daily workflow: time-saving automation techniques
- Mapping your professional practice with AI integration points
- AI ethics and professional responsibility: transparency, client trust, and avoiding pitfalls

Closing:

- Creating your personalized 90-day AI implementation plan
- Resources for continued learning
- Future-proofing your practice in an AI-driven world

Who This Is For

This retreat is designed for professionals who are committed to excellence:

- **Business owners & SME leaders** looking to scale operations intelligently
- **Senior executives & C-suite leaders** navigating organizational AI adoption
- **Professional service providers:** financial advisors, consultants, accountants, lawyers
- **Creative professionals** seeking to enhance (not replace) their expertise
- **Franchise owners** wanting consistent AI implementation across locations
- **Independent consultants** building competitive advantages

- **Non-profit executives** maximizing impact with limited resources

What you need: A laptop, basic computer skills, and genuine commitment to learning. We'll help you set up free accounts for ChatGPT, Claude, Gemini, and Copilot on Day 1.

Why This Retreat Works

Limited to 12 Participants

Unlike webinars with hundreds of attendees, you'll get direct access to expert facilitators, time for your specific questions, and meaningful peer connections.

Hands-On, Not Theoretical

You'll spend 80% of your time actually using AI tools, building workflows, and solving real problems from your practice.

Professionally Relevant

Every example, every exercise, every case study is designed for professionals at your level. No generic consumer use-cases.

Expert Facilitators

Led by Imagineers.Ai co-founders Rutger-Jan van Spaandonk and Chris Barker, who've helped businesses implement practical AI solutions across industries.

Immediate Implementation

You'll leave with working AI workflows, a 90-day plan, and the confidence to integrate AI into your Monday morning routine.

Full Programme

Day 1

08:00–09:00 | Breakfast & Welcome

Welcome packets with agenda, AI glossary, and practical applications guide

09:00–11:00 | Introduction to Generative AI Fundamentals

What is generative AI and how it differs from traditional AI

Overview of key platforms and real-world professional applications

[REGISTER NOW]

Prerequisites

You'll need:

- A laptop (Mac or PC)
- Basic computer literacy
- Free accounts on ChatGPT, Claude, Gemini, and Copilot (we'll help you set these up on Day 1 if needed)
- Genuine commitment to learning and implementation

No prior AI experience required. Just bring your curiosity and your real-world professional challenges.

Payment Details

[Payment method TBD - to be inserted]

Frequently Asked Questions

Q: I've never used AI tools before. Is this too advanced?

A: Not at all. We start with fundamentals and build systematically. Many participants are AI beginners who leave as confident implementers.

Q: Will this be relevant to my specific profession?

A: Yes. The workshop is designed for cross-industry application. You'll learn frameworks that apply to any professional context, with time to customize workflows for your specific needs.

Q: What if I can't attend both days?

A: The retreat is designed as an integrated experience. Both days build on each other, and the real transformation happens when you complete the full programme.

Q: Is there a limit on attendees?

A: Yes. We cap each session at 12 participants to ensure quality interaction, direct access to facilitators, and meaningful peer learning.

Q: What's the refund policy?

A: We offer a money-back guarantee. If you attend Day 1 and don't find immediate value, we'll refund your registration in full.

Ready to Transform Your Practice?

The professionals who master AI now won't just survive the next decade of change—they'll define it.

The question isn't whether AI will transform your industry. It's whether you'll lead that transformation or scramble to catch up.

Limited to 12 participants per session.
